ESD & Clean Room Products

כיסוי ראש מלא , הוד מבד אטום
משקל 65 גרם
אטום לנוזלים
בד נושם

Specifications

MATERIAL: Anti-static white material

COLOUR: White

CONSTRUCTION: Bound seams with single needle stitching

CLASSIFICATION: PPE Cat 3 Type PB [6]

CHARACTERISTICS: Anti-static to EN 1149-5* & low participating

COMPATIBILITY: ISO Class 4

Features

Extra-long yoke for maximum coverage
Lightweight low-linting material

Excellent ESD properties PPE Cat 3 Type PB [6]

quality Standards:

Manufactured in a facility holding ISO 9001:2015 and (EU)2016/425

Moule D certifications

Conforms to Category 3 - Personal Protective Equipment Regulation

(EU)2016/425

Tested against standard EN ISO 13034:2005+A1:2009 protective.

clothing against liquid chemicals (Type PB[6])

Tested against standard EN ISO 14325 protective clothing against

chemicals

Tested against standards: EN 1149-5:2008*, protective clothing -

electrostatic properties; EN 530, Abrasion resistance; EN 7854, Flex

cracking resistance; EN 6530, Resistance to penetration by liquids; EN

13934-1, Tensile strength; EN 9073-4, Trapezoidal tear resistance; EN

863, Puncture resistance; and EN 13935-2, Seam strength.

Tested against permeation standard ASTM F739-12

Processed in an NEBB certified ISO Class 4 environment
